Abbey Road is the eleventh studio album by English rock band the Beatles, released on 26 September 1969 by Apple Records. The recording sessions for the album were the last in which all four Beatles participated. Although *Let It Be* was the final album that the Beatles completed before the band's dissolution in April 1970, most of the album had been recorded before the *Abbey Road* sessions began.^[1] A two-sided hit single from the album, "Something" backed with "Come Together", released in October, topped the Billboard Hot 100 chart in the US.

**Definitely Maybe**

Definitely Maybe was an immediate commercial and critical success in the United Kingdom, having followed on the heels of the singles "Supersonic", "Shakermaker", and "Live Forever". The album went straight to number one in the UK Albums Chart, and became the fastest-selling debut album in the UK at the time; it went on to be certified 7x Platinum (2.1 million+ sales) by the BPI.^[4] Definitely Maybe marked the beginning of Oasis' success in the United States, selling over one million copies there despite only peaking at 58 on the Billboard 200. The album went on to sell over 8 million copies worldwide and brought widespread critical acclaim.

**Með suð í eyrum við spilum endalaust**

All the lyrics for the album were originally intended to be in English, but in the end the band decided that Icelandic felt more natural to them. Some lyrics were translated back into Icelandic, while some songs got completely new texts.^[16] It is the band's first album to feature a track sung in English ("All Alright"). The first track on the album, "Gobbledygook", premiered on Zane Lowe's BBC Radio 1 music show in the UK on May 27, 2008. "Festival" was premiered on Colin Murray's Radio 1 show on June 3, 2008. "Inni mér syngur vitleysingur" was used as the theme tune for Colin Murray's Gold Run, which aired on BBC Radio 5 Live during the run-up to the 2012 Summer Olympics.

It was released on October 22, 2012, by Big Machine Records, as the follow-up to her third studio album, Speak Now. The album title was inspired by the "semi-toxic relationships" that Swift experienced during the process of conceiving this album, with Swift describing the emotions she felt as "red emotions" due to their intense and tumultuous nature. Red touches on Swift's signature themes of love and heartbreak, however, from a more mature perspective while exploring other themes such as fame and the pressure of being in the limelight.
